

High Point Engineering

Larry O'Brien, PE Principal

Larry is a Principal and co-owner of High Point Engineering, established in 2004. Following his receipt of a Bachelor of Science Degree in Mechanical Engineering from the University of Buffalo, Larry entered the consulting engineering field in 1990. His thirty-plus years of experience include assisting clients in a variety of commercial, petroleum industry, manufacturing, industrial, and residential properties. Specific areas of expertise include service stations, airport properties, fueling terminals for bulk oil storage and transport, maintenance facilities, utility plants, transportation facilities, retail stores, office buildings, car washes, and related projects. Firm services include site planning and design, underground and above ground storage tank system designs with distribution piping and components, fire suppression systems, site rebuilds, environmental protection systems, construction details, zoning analysis, office and building renovation, program management, violation removal and code compliance for EPA, DEC, FDNY, and local municipalities, and related engineering design fields.

Larry has helped develop sites in the five boroughs of New York, Nassau and Suffolk Counties, various counties and cities in upper New York State, and New Jersey. He has testified as an expert in diverse Municipalities before Planning Boards, Zoning Boards, Town Boards and Architectural Review Boards in the State of New York.
